### DO YOU "WALK OUT"???

The Greeks may have had a name for it but it is pretty hard to find a satisfactory one in English. (The subject in need of a name at the present time is that "World's Meanest Person No. 57"-a parasitic biped who "walks out" of the library with a much needed reference of reserved book at the most critical moment.

Of the same species to be none-the-less frowned upon is the selfish joker who "hides" the sought-after book in some corner out of place, be-tween two large volumes of English history or among the Harvard Classics where he may return at his leisure and find ready access to material.

Personally owned books put on the reserve shelf by faculty members

sometimes seem to walk away as unobserved as the invisible man.

### DISCONTENT

Man's (woman's or girl's) main weakness is the desire to have what he hasn't and to be where he isn't.

When it's school you must attend, it's home you want to be and vice Discontent is what it's called.

If one could only be satisfied enough with the situation which en velopes him at the time of disgruntlement, the whole universe would be a happler one.

It is a delight to find a person who is satisfied, because that kind of human being is the salt of the earth. One gets tired of hearing so and so tell how much she missed school, while home for Christmas, and two days later how much she hates it.

And yet our ravings get us exactly nowhere—because—if they tell us discontent has made the world move—What if Robert Fulton had been content with his first attempt!

#### TRIBUTE

With the death of Rudyard Kipling, not only England but the whole world has suffered a great loss. An artist who did not wait for death for fame, his writings were read and loved the world over. The poet of his day and his country, yet he was never poet laureate.

As a young man he was given his choice of the university or the Orient, and he chose to travel, sailing for Lahore, India, as a cub on the Civil and Military Gazette. His genius gained recognition gradually through the medium of incidental verses which were published. Homeward bound via the United States, the youth failed to find in America the welcome he had expected. Dejected and disillusioned he set sail for England, and it was these experiences that he later wrote into "The Light That Failed." In a garret in London he wrote three stories that sold for fifteen dollars. These, however, paved the way toward the publication of "Piain Tales" which brought him the fame that has echoed through the years from the four corners of the earth.

Now the beloved Kipling is dead . . . gone the adventurer, gone th tale-teller, till East is no longer East, and West is no longer West, and the twain shall meet.

The Christmas season brought two of our out-of-state girls back to Virginia. Lucille Roy, of Connecticut, traveled all those many miles to visit her "roomie," Hattle Eillee Lewis. Another former Fredericksburg girl, Charlotte Scott, from Rome, Georgia, felt the strains of "Carry Me Back to Ole Virginia." Not being able to stand it another minute, she hopped a train northward bound, and spent two weeks "in these parts," visiting friends. Oharlotte thinks Virginia is the finest place ever, and it is!

Emily Davis' life has certainly been one of excitement lately. Emily had a job in a Norton Bank, but "her heart was in teaching" so a school she got at Big Stone Gap, Virginia. Teenie Smith certainly pulled the wool over many a person's eye. Yep, she and Norman said "I will" way back in August, 1935, which just goes to show—a woman can keep secret.
